# 8<sup>th</sup> Annual Course on Practical MR Imaging of the Abdomen and Pelvis *(with CT Correlation)*

## June 8-10, 2011

Boston Marriott Long Wharf  
Boston, MA

Course Director  
Koenraad J Mortelet, MD

## COURSE DESCRIPTION

---

This course will provide a practical review of the fundamentals and advances in the MR imaging diagnosis of anatomic variants and common medical and surgical conditions, as they involve the abdomen and pelvis. A series of cases commonly seen in clinical practice has been assembled to illustrate the “pearls” in diagnosis, and the “perils” of failing to recognize important MR imaging findings in a variety of clinical situations. There will be significant time for questions and answers and audience interaction.

## COURSE OBJECTIVES/GOALS

---

At the end of this course, participants will:

- Expand their knowledge in the clinical application of MR imaging to diseases involving the abdomen and pelvis.
- Improve their ability to recognize the key MR imaging features for accurate diagnosis of diseases involving the abdomen and pelvis.
- Understand how to better utilize MR and CT imaging resources.

## WHO SHOULD ATTEND

---

**Radiology:** practicing community and academic radiologists, residents and fellows with interest in abdominal and pelvic imaging

**Other specialties:** clinical physicians in surgery, gastroenterology, hepatology, urology, gynecology with interest in abdominal and pelvic MR imaging

## ALSO AVAILABLE

---

5-day Visiting Observership in Abdominal Imaging and Intervention. For more information visit our website, [www.radcme.harvard.edu](http://www.radcme.harvard.edu)
